CHAPTER 01 · ECOSYSTEM ARCHITECTURE

Introduction to the GlobeTrek Ecosystem

Welcome to **GlobeTrek PK** — Pakistan's premier digital B2B marketplace and AI-powered travel ecosystem. Built specifically for verified Pakistani tour operators, visa consultants, travel insurance brokers, and ticketing desks, GlobeTrek PK bridges the traditional gap between ambitious travel agencies and digital-first travelers across Pakistan and the overseas diaspora.

Core Partner Philosophy: We do not compete with travel agencies — we empower them. GlobeTrek PK operates on a partner-first model where verified agencies maintain direct client relationships while leveraging enterprise-grade AI and automated lead generation.

The Four Synchronized Operational Pillars

- **Marketplace Discovery & Universal Search:** Travelers browse multi-category services (Tour Packages, Visas, Travel Insurance, and Flights) categorized by country, departure city, and budget in PKR with 0% hidden FX conversion fees.
- **AI-Powered Lead Engine:** Our built-in bilingual (English & Roman Urdu) AI Concierge engages web visitors 24/7, answering destination questions, providing visa guidance, and capturing qualified customer contact leads.
- **Custom Lead Bidding Desks:** Travelers requesting bespoke group tours or visa filing submit structured requests. Verified vendors receive instant alerts and submit online quotations directly to traveler WhatsApp inboxes.
- **Verified Partner Governance:** Every agency undergoes Department of Tourist Services (DTS) and NTN verification, building immense traveler trust and ensuring a high-quality marketplace standard.

CHAPTER 02 · ONBOARDING & COMPLIANCE

Vendor Registration & Verification (KYC)

To maintain traveler confidence and prevent fraudulent operators, all travel partners undergo a strict identity and regulatory audit before their packages and services are published live.

Step-by-Step Onboarding Workflow

1. **Account Registration:** Visit the Partner Portal ([/auth](#)) and register your agency's legal business name, official business email, WhatsApp contact number, and operational branch city.
2. **Service Category Selection:** Choose your active business verticals: Tour Packages, Visa Services, Travel Insurance, or Flight/Umrah Desks.
3. **Document Submission:** Upload scanned copies of the required regulatory credentials via the KYC Portal ([/vendor/kyc](#)).

Mandatory KYC Credentials Checklist

- **Authorized Signatory CNIC / Passport:** Valid government ID of the agency proprietor or managing director.
- **Department of Tourist Services (DTS) License:** Valid DTS registration certificate or official operational permit.
- **FBR NTN Registration Certificate:** Official National Tax Number document proving registered business status.
- **Corporate Bank IBAN / SafePay Account:** Verified Pakistani bank account for lead unlock fee settlements and refunds.

24-Hour Express Audit: The GlobeTrek Partner Verification Desk audits submitted documentation within 24 business hours. Upon approval, your Vendor Console is unlocked with the official  **"Verified Partner"** trust badge.

CHAPTER 03 · AI TOOLS & AUTOMATION

GlobeTrek AI Engine — All 4 Production Tools

GlobeTrek PK embeds four production AI services powered by OpenRouter models to accelerate travel operations:

1. Bilingual AI Travel Concierge (Customer-Facing)

Location: Floating chat widget on all public pages · **Access:** Available to all visitors.

- **Bilingual Language Mirroring:** Responds fluently in English or natural Roman Urdu based on user prompt.
- **Database Grounding:** Answers traveler queries using live database listings for tours, visas, insurance, and ticketing.
- **Automated Lead Capture:** Fired via server tool `capture_lead` when the visitor requests a callback or booking.

2. Premium AI Trip Planner (Vendor Console)

Takes destination country, duration, departure hub, and budget in PKR, generating a full day-by-day itinerary with morning/afternoon/evening activities and hotel recommendations in under 10 seconds.

3. AI Embassy Fee Lookup (Visa Console)

Location: Vendor Console → Visa Services → "AI Fee Lookup".

Provides real-time embassy visa fee estimates in PKR and foreign currency (GBP, EUR, USD, CAD, SAR) with source confidence ratings for Schengen, UK, US, Canada, Turkey, and Gulf visas.

4. AI Partner Operational Assistant (Vendor Guide)

Location: Embedded in `/vendor-guide` · **Access:** Free for all partners.

CHAPTER 04 · CUSTOM TOUR MARKETPLACE

Custom Tour Requests & Lead Bidding System

Custom Tour Leads represent high-value private group inquiries (families, corporate retreats, honeymoons) submitted through the website or AI Concierge.

Key Lead Bidding Operating Rules

- **Admin Budget & Intent Verification:** Every custom tour lead is called by the GlobeTrek verification desk to confirm travel dates, group count, and budget before publishing to the marketplace.
- **Strict Max 3 Vendor Unlock Cap:** To prevent price wars and aggressive telemarketing, each lead is capped at **3 unlocking agencies**. Once 3 agencies unlock a lead for Rs 5,000, it automatically transitions to Sold Out.
- **Online Proposal Builder:** Unlocked agencies enter hotel details, flight inclusions, itinerary highlights, and total price in PKR.
- **WhatsApp Notification Engine:** Submitting a proposal instantly sends a formatted WhatsApp message to the traveler with a direct link to compare bids online (`/customer/quotes?token=...`).
- **Quote Acceptance:** When the traveler selects your quote, the system alerts you on WhatsApp with direct contact details and marks the lead as Accepted.

12-Hour Proposal Benchmark: Agencies are required to submit structured quotations within 12 hours of unlocking a lead to maintain high customer conversion rates.

CHAPTER 05 · CUSTOM VISA & REFUSAL ENGINE

Custom Visa Leads & Refusal Rectification Engine

In the Pakistani market, visa refusal rates for Schengen, UK, US, and Canada create high demand for expert visa file preparation and appeal consultation. GlobeTrek PK operates a specialized B2B Custom Visa Leads Marketplace.

Core Architecture & Commercial Terms

- **Instant Auto-Verification:** Visa leads are auto-verified and broadcasted immediately to the B2B marketplace with zero admin delays.
- **Rs 750 Lead Unlock Fee:** Any verified visa consultant can unlock full applicant contact details for an accessible **Rs 750** via SafePay QuickLink V2.
- **Competitive 5-Quotation Limit:** Each lead is capped at **5 vendor unlocks**, giving the applicant multiple qualified options while preserving agency conversion odds.
- **Refusal Case Categorization:** Cases are tagged with prior refusal history and rejection clauses (e.g. *UK Paragraph V4.2, US 214(b), Schengen Purpose of Stay*).
- **Local Client Match Badging:** Automatically highlights applicants residing in the same city as your agency branches (Islamabad, Lahore, Karachi, Rawalpindi, Peshawar, Faisalabad, Sialkot).
- **Submission Office Identification:** Identifies preferred drop-box centers: Gerry's Visa Drop Box, VFS Global, Anatolia (Turkey), or Direct Embassy.
