ONBOARDING & SETUP · CHAPTER #1

Introduction to the GlobeTrek Ecosystem

Welcome to GlobeTrek PK — understanding the vision, digital architecture, operating model, and commercial benefits for Pakistani travel agencies.

| Introduction to the GlobeTrek Ecosystem

Welcome to **GlobeTrek PK** — Pakistan's premier digital B2B marketplace and AI-powered travel ecosystem. Built specifically for verified Pakistani tour operators, visa consultants, travel insurance brokers, and ticketing desks, GlobeTrek PK bridges the traditional gap between ambitious travel agencies and digital-first travelers across Pakistan and the international diaspora.

● What is the GlobeTrek Portal & Ecosystem?

GlobeTrek PK is a unified digital infrastructure designed to modernize travel commerce in Pakistan. Historically, travel agencies faced high customer acquisition costs, fragmented WhatsApp communication, manual quotation crafting, and payment collection friction.

GlobeTrek PK unifies these operations into a single, high-performance web platform featuring transparent pricing in Pakistani Rupees (**PKR**), automated bilingual AI concierges, real-time custom lead bidding, and direct SafePay digital settlements.

[!NOTE] The GlobeTrek Core Philosophy: We do not compete with travel agencies — we empower them. GlobeTrek PK operates on a partner-first model where verified agencies maintain direct client relationships while leveraging enterprise-grade AI and automated lead generation.

● How the Ecosystem Operates

The platform operates across four synchronized pillars to drive continuous lead flow and agency efficiency:

- **Marketplace Discovery & Universal Search:** Travelers browse multi-category services (Tour Packages, Visas, Travel Insurance, and Flights) categorized by country, departure city, and budget in PKR with 0% hidden FX conversion fees.

- **AI-Powered Lead Engine:** Our built-in bilingual (English & Roman Urdu) AI Concierge engages web visitors 24/7, answering destination questions, providing visa guidance, and capturing qualified customer contact leads.
- **Custom Lead Bidding Desk:** Travelers requesting bespoke group itineraries submit custom requests. Verified vendors receive real-time alerts and submit structured online quotations directly to traveler WhatsApp inboxes.
- **Verified Partner Governance:** Every agency undergoes rigorous Department of Tourist Services (DTS) and NTN verification, building immense traveler trust and ensuring a high-quality marketplace standard.

● Key Commercial Benefits for GlobeTrek Vendors

Custom Tour Requests & Lead Bidding System

How custom group tour leads work, Max 3 vendor unlock limits, online proposal submission, and automated WhatsApp alerts.

| Custom Tour Requests & Lead Bidding System

Custom Tour Leads are high-intent traveler requests for group itineraries (family, corporate, honeymoon) generated directly through the GlobeTrek AI Concierge & Request Portal.

● Key Lead Bidding Rules:

● Admin Verification Barrier:

- Every submitted custom tour lead is first called and vetted by GlobeTrek Admin to verify budget, travel dates, and seriousness before being published to the marketplace.

● Max 3 Vendor Unlock Limit:

- To prevent over-competition, each lead is capped at a maximum of **3 vendor unlocks**. Once 3 vendors purchase a lead for Rs 5,000, it automatically locks and hides from the marketplace.

● Submitting Online Quotations:

- Once unlocked, vendors can click "**Submit Online Quotation**" to enter total price (PKR), hotel details, flight inclusions, and itinerary highlights.

Automated WhatsApp Delivery:

- Submitting a quotation triggers an instant WhatsApp notification to the traveler with a direct link to compare proposals side-by-side online ('/customer/quotes?token=...').

Quote Acceptance & Auto-Closure:

- When the traveler selects your quote, you receive an immediate WhatsApp notification with full traveler contact details, and the lead status updates to **Accepted**.

LEAD GENERATION · CHAPTER #5

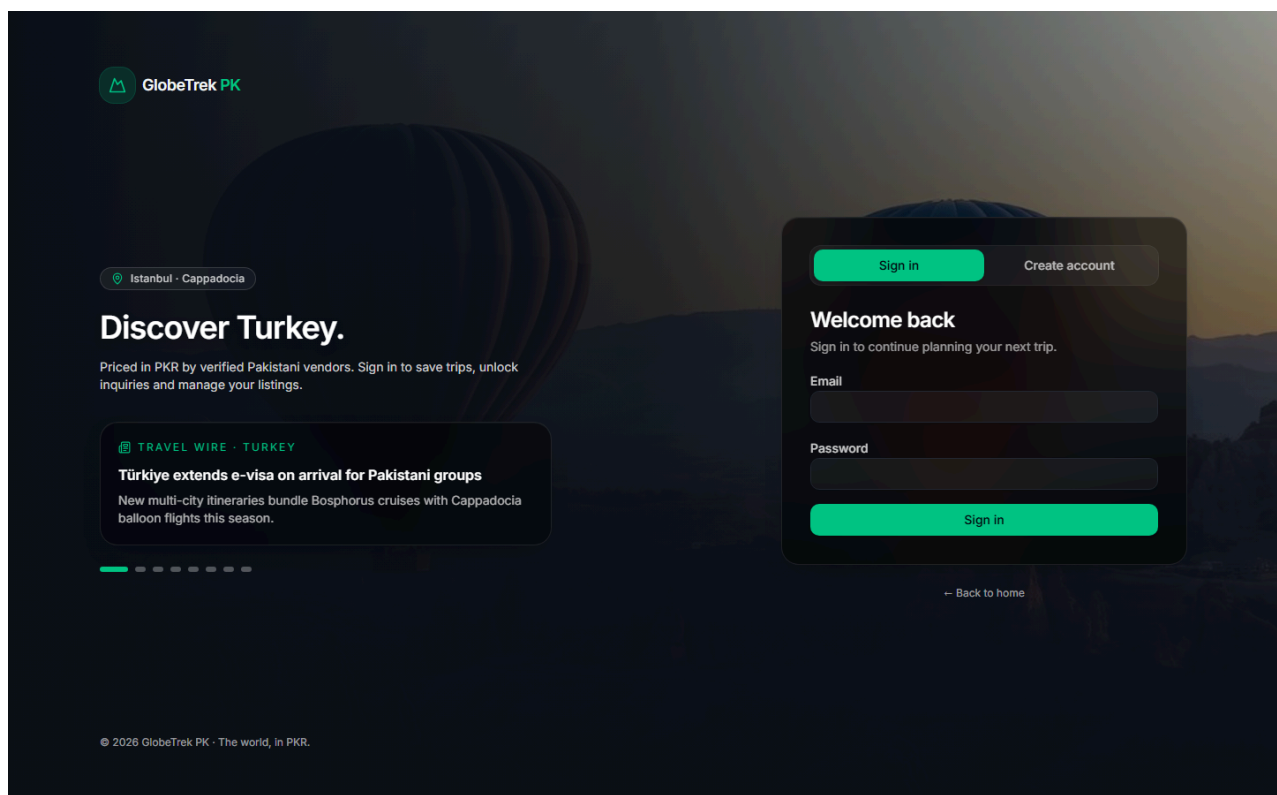

Custom Visa Leads & Refusal Rectification Engine

High-converting B2B visa consultation leads, Rs 750 SafePay unlock fee, 5-quotation cap, refusal case appeals, and Gerry's/VFS biometric drop-box handling.

| Custom Visa Leads & Refusal Rectification Engine

In the Pakistani travel market, visa inquiries and refusal rectifications (particularly for **Schengen**, **United Kingdom**, **United States**, **Canada**, and **Turkey**) represent the highest-intent, highest-margin commercial opportunity.

GlobeTrek PK operates a specialized **Custom Visa Intake & Lead Bidding Engine** connecting applicants directly with verified Pakistani visa consultants, immigration lawyers, and former embassy officers.

● Key Operating Principles & Architecture

1. INSTANT AUTO-VERIFICATION (ZERO ADMIN BOTTLENECK)

Unlike tour leads, visa inquiries are **auto-verified and published instantly** to the B2B marketplace upon applicant submission. This ensures vendors can contact anxious travelers within minutes of inquiry generation.

2. ACCESSIBLE Rs 750 LEAD UNLOCK FEE

Any verified visa consultant on GlobeTrek PK can unlock full applicant contact details (Name, WhatsApp Number, Email, Submission Office, Resident City, Bank Statement Status, and Refusal Clauses) for **Rs 750** via integrated SafePay QuickLink V2.

3. COMPETITIVE 5-QUOTATION LIMIT PER LEAD

To ensure healthy competition without overwhelming the traveler, each custom visa lead is strictly capped at **5 vendor unlocks**:

- The card displays a live counter (e.g. **2/5 Agencies Unlocked · 3 Slots Left**).
- Once 5 agencies unlock the lead, it transitions to **Sold Out** and prevents further payments.

4. REFUSAL CASE CATEGORIZATION & RE-APPLICATION FILE PREPARATION

Leads are clearly tagged with applicant case profiles:

- 🚩 **Prior Refusal Case**: Includes specific refusal clauses (e.g. *Paragraph V4.2(a)/(c), 214(b)*, or justification of purpose/finances).
- 🟢 **Fresh Passport / First-Time Traveler**: Applicants needing complete file compilation and tie-back documentation.
- 🟡 **Embassy Interview & Slot Assistance**: Mock coaching and biometric appointment booking.

5. LOCAL CITY MATCH BADGING

When an applicant's resident city matches your agency's verified branch city (e.g. Islamabad, Lahore, Karachi, Rawalpindi, Peshawar, Faisalabad, Sialkot), the card displays a highlighted **Local Client** badge, giving you an advantage for in-person office visits.

● Structured Proposal Builder & Traveler Delivery

Once unlocked, vendors use the built-in **Proposal Submission Modal** to enter:

- **Agency Service / Consultancy Fee (PKR)**
- **Estimated Embassy / Drop-Box Fee (PKR)**
- **Turnaround Timeline (e.g. 5-7 Business Days)**
- **Consultation Mode Offered**: 🏠 *In-Person Office Visit* or 🌐 *100% Online Remote E-Filing*
- **Standard Inclusions**: *Complete Document Audit, Cover Letter Drafting, Appointment Slot Booking, Mock Interview Coaching, Tax/FBR Verification, Bank Statement Tie-Back Review.*

[!TIP] Instant WhatsApp Traveler Notification: When you submit or revise a proposal, GlobeTrek PK automatically dispatches a formatted WhatsApp alert to the traveler with a secure link to your live proposal page (`/customer/visa-quotes?token=...`) and direct one-click WhatsApp chat button.

QUALITY & GOVERNANCE · CHAPTER #5

Marketplace Quality Standards & Code of Conduct

Required service standards for tour itineraries, visa filing timelines, and partner code of conduct.

| Marketplace Quality Standards & Code of Conduct

To protect traveler confidence across Pakistan, all GlobeTrek PK partner agencies adhere to strict quality standards:

● Mandatory Partner Commitments:

- **Accurate Package Pricing:** Listed tour rates must reflect real total prices with clear inclusion/exclusion notes.
 - **Timely Quotations:** Custom tour lead quotations must be submitted within **12 hours** of unlocking a lead.
 - **No Unsolicited Spam:** Travelers' contact details unlocked via custom leads must be used strictly for requested travel inquiries.
 - **Honest Hotel Ratings:** Hotel star ratings listed in tour packages must match official hotel classifications.
-

● How Your Business Rating is Carried Out

Every partner agency on GlobeTrek PK receives a public trust rating (e.g. ★ **4.8 / 5.0**) displayed on package listings and agency profile cards. Ratings are computed and updated through three transparent mechanisms:

- **Verified Traveler Reviews:** After completing a booked tour or custom trip, travelers submit post-trip ratings (1 to 5 stars) evaluating hotel accuracy, itinerary fulfillment, punctuality, and tour guide quality.
 - **Platform Admin & KYC Accreditation:** During partner onboarding, GlobeTrek Admins audit official Department of Tourist Services (**DTS**) licenses, NTN tax registrations, and office credentials. Verified agencies receive an accredited baseline score (e.g. ★ **4.8 Verified Vendor**) until organic customer reviews accumulate.
 - **Automated Operational Governance:** GlobeTrek system algorithms continuously monitor partner performance metrics:
 - **Quotation Speed:** Submitting custom lead quotes within **12 hours**.
 - **Listing Integrity:** Strict compliance with Honest Hotel Ratings (3-Star / 4-Star / 5-Star accuracy).
 - **Dispute Ratio:** SafePay refund and transaction dispute history.
-

● Verified Partner Trust Badges

Upon passing KYC document audit (DTS License + NTN Tax ID), your agency automatically unlocks official platform trust badges displayed across marketplace listings and quotation cards:

-  **"Verified Partner" Badge:** Displayed on all tour packages, visa services, and custom lead quotations to prove government registration.
 -  **"Gold Tier Vendor" Badge:** Awarded to **Pro** and **Agency** subscription plans maintaining a 4.5+ star rating, granting priority placement in universal search.
 -  **"Fast Responder" Badge:** Automatically earned by partner agencies maintaining an average quote submission time under **6 hours**.
-
